Cash Bar Response

While we have done a few events like this in the past, I try to avoid it if at all possible because my company does not have a license to commercially sell alcohol. But we are technically allowed to serve alcohol from a cash bar as long as it is clear that my company is not providing and making a profit off the alcohol. I would recommend a second person to supervise the cash handling if you do choose to proceed this way

Wedding Wire Leads

However, we can put you in touch with some caterers I've worked with in the past and we do provide our own food servers for your event as well. It can be difficult to arrange for a bartender with such short notice without firm intent, so I need to confirm your written commitment to securing our services before reaching out to my staff. If you are considering other services, it would be best to go with them. However, if you are certain that you will be booking through us, then you will be guaranteed a professional bartender as long as the deposit is paid beforehand. Independent Contractor Agreement

Hey Ray,

I need all those that work with the business from now on to be covered under an Independent Contractor agreement. Nothing has changed since the previous draft. As before it basically state that agree to: 1) uphold the reputation of the company for excellent customer service and; (2) work as an independent contractor by arranging your own transportation and

buying your own equipment/supplies as needed and; (3) Be legally liable for your own actions/insurance, and (4) responsible for your own income and tax reporting.

Thanks for your cooperation and excellent work. Looking forward to another great year of events!
